

RST-SANEXAS ADVANCED QUANTUM-BASED TECHNOLOGY FOR PAIN MANAGEMENT, CIRCULATION, AND REHABILITATION

**Lisa Sorgnard,
CEO and President**

It's a NEW YEAR and we are excited about offering a new series of advanced training seminars to help you reduce your patient's pain and provide you with more clinical uses of our neoGEN® devices. To help us plan your trainings so you get the best technical knowledge and complete clinical treatment programs, please answer a few questions.

Question 1 *Would you be interested in neoGEN® technical support?*

YES or NO

Question 2 *Are you Interested in growing your practice to help patients?*

YES or NO

Question 3 *Would you be interested in Advanced Training Seminars? Such as but not limited to pain associated with TMJ, Headaches, and Cramps.*

YES or NO

Question 4 *When are the optimal months in 2022 for you to attend our advanced training classes?*

PLEASE GIVE 3-4 OPTIMAL MONTHS

NOTE: *Copy and paste your answers to the above questions and email them back to Shawn Vance, GM at shawn@rstsanexas.com*

RST-SANEXAS suggests that you take the protocols you intend to use, the code options, and the indications to your local billing/coding authority or billing/coding authority of your choice. They will have better insight to the rules and regulations in your area and scope of practice. RST-SANEXAS is NOT a billing company.

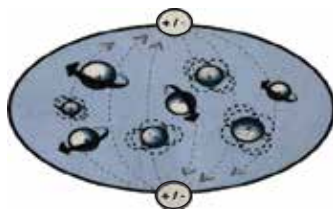

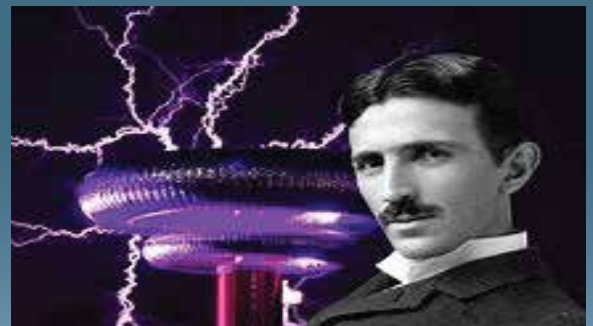

Fig 1. Influence of an alternating electric field on the orientation and energy of molecules in the cell. This alternating polarity energy increases the probability that specific chemical groups of substrates and enzymes (with normally opposed charges) will chemically react. This effect may be of great importance in enhancing the enzymatic breakdown of pain and inflammatory mediators.

If you want to find the secrets of the universe, think in terms of energy, frequency, and vibration.
