

*Thank you for your continued support and partnership throughout 2022.
Wishing you and your staff, family, and friends a happy and healthy
Holiday Season and prosperous 2023!*

A Year in Review - 2022

THE COURT'S FINAL DECISION: The Court's order effectively ends the Plaintiff's case against RST-SANEXAS!

1. FEDERAL JUDGE in the Central District of California RULED IN OUR FAVOR!!

On October 11, 2022, a Federal Judge in the Central District of California granted summary judgement against Vanguard Clinic and the related plaintiffs, dismissing all of their claims against us.

2. Fighting the Good Fight to do the Right Thing for YOU! We continue to work on your behalf with Centers for Medicare and Medicaid Services (CMS) and insurance companies. Throughout the past year and half, we have worked with our Washington, DC attorney and met with CMS officials to provide them with a better understanding of our technology. We continue to represent your best interest to achieve a clear path for your services and patients under your care, so they receive a better quality of life, pain-free.

3. Training Both On-Site and Zoom: We continue to support you and your staff with on-site trainings throughout this year but also have done zoom trainings along with in-office RST-SANEXAS trainings for new customers.

4. Moving forward in 2023, we are working on a peer-review study. We will keep you informed about the study and its progress. Stay tuned!

5. New Product: SynRG Lightrodes - 3 sizes available

Specialty treatment infrared and red-light field electrodes that can be attached to neoGEN® for treating deeper into tissue by producing a small, concise stereotactic treatment area between the electrode pads. This helps to relax the muscles and relieve muscle spasms, relieve minor muscle and joint aches, pain and stiffness associated with arthritis, and increase local blood circulation.

SynRG Lightrode – Large Pad – Item # 55106

SynRG Lightrode – Medium Pad – Item # 55107

SynRG Lightrode – Small Pad – Item # 55108

6. Marketing: Redesigned and launched our new website with mobile-friendly access www.rstsanexas.com giving more technical content and a user-friendly experience. We improved the information to assist you in your clinics with patient treatments including EcST science, neoGEN-Series®, videos, blogs, testimonials, monthly newsletters, etc. Patients can improve their understanding of their treatments with a resource to doctor and patient testimonials, patient guide, after-care products, and a listing to "Finding a Doctor" in their local area. Other marketing programs, ViewPoint with Dennis Quaid and I-Heart radio provided national exposure and are finished. Our ongoing partnership with Las Vegas Golden Knights hockey team enters its 3rd season with promotional .30 sec radio commercials, digital and dasher board ads, events, etc.
